Enjoy inhabiting a European modern styled home with the resplendent features that you have been looking for like oversized windows, solar light tubes and hand scraped hardwood floors. Appearing like a magazine spread, this home boasts Vessel sinks, Danze faucets and Janes in-floor radiant heat. This decadence is balanced by the money saving efficiencies you'd expect from this Four Star Built Green home like Rinnai on-demand hot water and Toto toilets. Finish off the presentation with punctuated finishes like concrete floors on the first level, a gas fireplace skirted in artisan colored glass and a private balcony for calm mornings and glistening evenings. Construction is now complete.
